

GENERAL TERMS OF SALE

1 – SCOPE OF APPLICATION OF GENERAL CONDITIONS

1. These general terms and conditions shall govern all present and future relations between the parties in relation to the supply of parts, equipment, hydraulic and pneumatic systems, as well as products in general from AS Aston Seals s.p.a. (the "Products"). The General Terms may be derogated – also in respect of specific provisions - only by virtue of a document undersigned by the Supplier and included in the Supplier's written confirmation of acceptance of the order.
2. Unless they have been specifically approved in writing by AS Aston Seals s.p.a. (hereinafter, "Supplier"), general or special conditions differing from the General Terms and recalled or referred to by the purchaser (hereinafter, "Purchaser") in its communications to the Supplier shall be considered void.

2 – CONSTITUTION OF THE CONTRACT

1. The supply contract between the Supplier and the Purchaser shall take effect upon the Supplier's written confirmation of acceptance of the order.
2. Nevertheless, if the conditions indicated in the Purchaser's order differ from the General Terms of the Supplier, the latter shall count as a new proposal and the contract shall be deemed as effective at the time the Purchaser begins the performance of the contract or accepts the products without express written reservation.
3. Any Supplier's offer shall be considered valid within the timeframe indicated on the selfsame offer and exclusively for the full supply of the quantity quoted. In the absence of express indication of the duration of the Supplier's offer, the offer shall be considered expired and non-binding for the same after 30 days from the date the offer was delivered to the Purchaser, unless expressly stated otherwise by the Supplier.

3 - TECHNICAL DETAILS, DESIGNS AND DOCUMENTS PERTAINING TO SUPPLY

1. The Supplier's data and illustrations from catalogs, brochures, circulars or other illustrative documents are approximate and for general reference only. These data are not binding unless expressly mentioned as such in the Supplier's confirmation of acceptance of the order.
2. The Supplier reserves the right to make changes to its products at any time as it deems appropriate, informing the Purchaser if changes affect the installation.
3. If the Purchaser proposes changes to the products, the same changes will become accepted and effective only upon full written agreement between the parties accepting the changes, the changes that these modifications may cause to prices and delivery periods previously established. Prices may also vary if the quantities ordered are reduced or a more urgent delivery is required in respect to what has already been agreed.
4. The Purchaser expressly agrees not to use, for reasons other than those provided in the supply contract, the designs, technical information, and discoveries related to the supply, which remain the property of the Supplier and which the Purchaser cannot disclose/deliver to third parties or reproduce without Supplier's written permission.
5. In any case, all know-how pertaining to the Supplier, in any way or form communicated to the Purchaser, shall be deemed as confidential and, consequently, kept secret from third parties, unless Supplier has agreed otherwise in writing in advance.
6. The Purchaser is required to inform the Supplier, in the pre-contractual phase, of the existence of any specific regulations to be observed in the country of final destination of the merchandise to be delivered.

4 – EXCLUSIONS

1. Unless otherwise agreed in writing, the following are not included in the delivery: the system design, installation of equipment supplied, specific tests, manuals and training courses, start-up assistance and all services and charges not mentioned in the Supplier's written acceptance of the order.
2. Likewise, packaging costs, taxes, stamp duties, customs fees, duties and any other additional charges are not included in the price unless otherwise evident from the Supplier's written confirmation of order acceptance.

5 – DELIVERY

1. Unless otherwise agreed, the supplies are intended for merchandise delivered ex works, without packaging.
2. With the remittal of materials to the Purchaser or to the carrier, the Supplier is released from liability for the delivery. All risks for the material itself shall pass to the Purchaser, even in the event that the Supplier is responsible for the shipment or installation on site.
3. Delivery times are approximate and are calculated in terms of working days.
4. Unless otherwise agreed by the parties, the terms of delivery shall take effect from the time of the contract's conclusion, unless the Purchaser is required to pay and advance payment, in which case the validity of the delivery terms is suspended for as long as had not been provided for.
5. The delivery terms will be automatically extended:
 - a) if the Purchaser fails to provide in a timely manner the data or materials necessary to the supply, or requests variations in the course of execution, or delays in responding to requests for approval of designs or executive schemes;
 - b) if causes out of the control of the good intentions and diligence of the Supplier – including sub-Suppliers' delays – prevent or make an on-time delivery excessively expensive.
6. In the event that the Purchaser is not in compliance with payments concerning Supplier's other deliveries, the validity of the terms of delivery is suspended and the Supplier may delay delivery until the Purchaser has paid the sums due.
7. The terms of delivery are established in favor of the Supplier: Therefore, the Purchaser may not refuse to accept delivery of the products carried out before the date established.
8. Except as provided for under art. 12, in the case of the Purchaser's failure to accept products, whether on its own part or for reasons otherwise beyond the control of the Supplier, the Purchaser shall bear the risks and costs of their safekeeping.

6 – TESTING AND ASSEMBLY

1. Special testing, which may be provided for in the written confirmation of order acceptance, will be performed at the Purchaser's expense in the establishment designated by the Supplier.
2. Installation and testing work, if required, will be performed by the Supplier at the Purchaser's expense.

7 – TERMS OF PAYMENT

1. Unless otherwise agreed, the Purchaser must make payments to the Supplier within the deadlines set in the written confirmation of order acceptance, at the offices of the Supplier or at the bank indicated by the Supplier: in case of delay, the Purchaser will be required to pay interest for late payment, which will be counted as a full right, without the need for formal notice, to the extent of the official bank rate ("tasso ufficiale di sconto") in force in the Supplier's country increased by three points, reserving the Supplier's right in each case to claim compensation for major damage and termination of the contract pursuant to law and/or art. 12.

8 – GUARANTEE

1. The Supplier guarantees the conformity of the products supplied, meaning that the products are free from defects in materials and / or workmanship and are in conformity with what is established in the specific contract agreed to by the parties.
2. The warranty period is for twelve months starting from the delivery of the product. For product or part replacement, the warranty begins from the day of replacement.
3. The Purchaser, no later than 8 days after delivery for obvious defects and not later than 8 days after discovery for those hidden, must report in writing the existence of the defect. Under such condition, the Supplier, within the period provided above under 8.2. will, at his choice - repair or replace the products or parts found to be defective. The Supplier shall only be required to replace or repair defective products to the exclusion of any other warranty, performance and liability for damages of any nature suffered by the Purchaser. In particular, the Supplier will not be responsible for any loss of profit, or for delay in delivery of the Purchaser's work, or for costs associated with installation or removal of the defective goods.
4. Replacements or repairs are usually made ex-works: all costs and risks for transporting defective products shall be borne by the Purchaser. However, if the Supplier, in agreement with the Purchaser, deems it more appropriate to perform the work required to replace or repair at the Purchaser's premises, the Purchaser shall bear all travel and living ordinary expenses for technical personnel made available by the Supplier, and shall provide all the means and support staff necessary to perform the work in the most timely and safest way possible.
5. The return of non-conforming merchandise must always be authorized. Materials returned must be shipped at the Purchaser's risk. At the return, the selling price will be deducted from the costs incurred by the Supplier.
6. No warranty is granted whenever the products have been assembled or used incorrectly or have received inadequate maintenance or have been modified or repaired without the consent of the Supplier. The Supplier is not liable, moreover, for the inconformity of products due to normal use of parts by nature subject to rapid and continuous use.

9 – SUPPLIER'S LIABILITY

1. The Supplier is exclusively responsible for the smooth functioning of all products supplied, in accordance with the characteristics and estimates expressly indicated by the Supplier itself.
2. The Supplier does not, however, assume any responsibility for any malfunctioning of any machine or system manufactured by the Purchaser or by third parties with the Supplier's hydraulic or pneumatic components, even if the individual pneumatic equipment were mounted or connected in accordance with the plans or designs suggested by the Supplier. On this regard, the Purchaser affirms and acknowledges that the Supplier is not aware – nor is it bound to become aware - in detail, even if formally stated by the Purchaser, of the actual use the Products shall be destined to, nor of the complete application parameters of the Products.
3. Moreover, in order to determine the suitability of the Products for the specific purpose pursued by the Purchaser, the Purchaser expressly acknowledges to the Supplier that it is the exclusive responsibility of the Purchaser itself to duly investigate the sealing solution in the installed state, as well as in the specific application, regardless of the possible support rendered by the Supplier. Specifically, as the sealing function relies on the whole system, Supplier cannot guarantee that the Products are suitable for the specific application pursued by the Purchaser.
